

Based on the detailed analysis of previous year question (PYQ) trends, frequently tested competency-based applications, and the official CBSE 2025-26 syllabus weightage [1-3], here is a highly probable predictive blueprint for the **CBSE Class 12 Physical Education (048) 2027 Board Exam**.

The paper is structured exactly like the actual CBSE format: **37 Questions | 70 Marks | 3 Hours**.

SECTION A: Objective Type Questions (18 Marks: 18 x 1)

All questions are compulsory. Consists of MCQs and Assertion-Reason questions.

Q1. What is the formula to calculate the number of matches in a single league tournament? [4] (A) $N - 1$ (B) $N(N - 1)$ (C) $N(N - 1)/2$ (D) $2N - N$ *Unit 1: Management of Sporting Events | Tag: Very High***

Q2. The Swedish word "Speed Play" is also known as: [5, 6] (A) Fartlek training (B) Interval method (C) Continuous method (D) Pace method *Unit 10: Training in Sports | Tag: Very High***

Q3. Which of the following is NOT a female athlete triad? [7] (A) Amenorrhoea (B) Eating disorder (C) Obesity (D) Osteoporosis *Unit 2: Children & Women in Sports | Tag: Very High***

Q4. Identify the Asana which is performed in a sitting posture and is beneficial for curing Obesity: [8] (A) Tadasana (B) Vajrasana (C) Halasana (D) Shavasana *Unit 3: Yoga as Preventive Measure | Tag: High***

Q5. Which of the following are fat-soluble vitamins? [9] (A) Vitamin D & K (B) Vitamin B & C (C) Vitamin A & E (D) Both A & C *Unit 5: Sports & Nutrition | Tag: Very High***

Q6. The Chair Stand Test for senior citizens is used to measure: [10] (A) Lower body strength (B) Upper body strength (C) Aerobic fitness (D) Flexibility *Unit 6: Test and Measurement | Tag: High***

Q7. "The golf ball remains at rest until it is struck by a golf club." This statement indicates: [11] (A) Law of Inertia (B) Law of Acceleration (C) Law of Gravity (D) Law of Reaction *Unit 8: Biomechanics and Sports | Tag: Very High***

Q8. In PRICE treatment for soft tissue injuries, what does 'I' stand for? [12] (A) Incision (B) Incline (C) Ice (D) Irritation *Unit 7: Physiology & Injuries | Tag: High***

Q9. Jung classified personality into which of the following categories? [13] (A) Introvert and Extrovert (B) Endomorph and Mesomorph (C) Calm and Even-tempered (D) Hostile and Instrumental *Unit 9: Psychology and Sports | Tag: Medium***

Q10. A bone fracture where the bone is crushed into a number of pieces is known as: [14] (A) Transverse (B) Greenstick (C) Comminuted (D) Oblique *Unit 7: Physiology & Injuries | Tag: High***

Q11. To participate in the Special Olympics, the minimum age of the athlete should be: [15] (A) 6 years (B) 7 years (C) 8 years (D) 9 years *Unit 4: PE & Sports for CWSN | Tag: Medium***

Q12. What type of lever has the fulcrum located between the load and the effort/force? [16, 17] (A) First-class lever (B) Second-class lever (C) Third-class lever (D) Both A & B *Unit 8: Biomechanics and Sports | Tag: Very High***

Q13. Which postural deformity is characterized by an exaggerated backward curve of the spine, often called a "hunchback"? [18, 19] (A) Scoliosis (B) Lordosis (C) Kyphosis (D) Flat Foot *Unit 2: Children & Women in Sports | Tag: High***

Q14. In which type of exercises is the movement NOT visible directly? [20] (A) Isotonic (B) Isokinetic (C) Isometric (D) Plyometric *Unit 10: Training in Sports | Tag: Very High***

Q15. The amount of blood pumped out by the heart in one beat/stroke is called: [21, 22] (A) Cardiac Output (B) Stroke Volume (C) Tidal Volume (D) Blood Pressure *Unit 7: Physiology & Injuries | Tag: Medium***

Q16. Aggression aimed at hurting an opponent to achieve a specific goal (like winning) without primarily intending to cause physical harm is: [23] (A) Hostile aggression (B) Assertive aggression (C) Instrumental aggression (D) Passive aggression *Unit 9: Psychology and Sports | Tag: High***

Q17. Assertion (A): The knock-out tournament is an elimination tournament. **Reason (R):** In a knock-out tournament, the winner of each match advances while the loser gets eliminated immediately. [24] (A) Both (A) and (R) are true and (R) is the correct explanation of (A). (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A). (C) (A) is true, but (R) is false. (D) (A) is false, but (R) is true. *Unit 1: Management of Sporting Events | Tag: Very High***

Q18. Assertion (A): The Basal Metabolic Rate (BMR) is the number of calories needed to maintain body function at resting condition. **Reason (R):** A person who does not engage in any physical work still requires energy for the functioning of their internal organs. [25] (A) Both (A) and (R) are true and (R) is the correct explanation of (A). (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A). (C) (A) is true, but (R) is false. (D) (A) is false, but (R) is true. *Unit 5: Sports & Nutrition | Tag: High***

SECTION B: Very Short Answer Type (10 Marks: Attempt any 5 out of 6 x 2)

Word limit: 60-90 words.

Q19. Enlist any two corrective measures each for Knock Knees and Flat Foot. [18, 26] *Unit 2: Children & Women in Sports | Tag: Very High***

Q20. Differentiate between the nutritive and non-nutritive components of a diet. [27, 28] *Unit 5: Sports & Nutrition | Tag: High***

Q21. Mention the test items used to measure upper-body strength and lower-body strength in the Rikli and Jones Senior Citizen Fitness Test. [10] *Unit 6: Test and Measurement | Tag: High***

Q22. What do you mean by 'Goal Setting' in sports psychology? [29, 30] *Unit 9: Psychology and Sports | Tag: Medium***

Q23. Briefly mention two advantages of Isokinetic exercises. [30] *Unit 10: Training in Sports* | Tag: Medium**

Q24. List any four advantages of physical activities for Children with Special Needs (CWSN). [31, 32] *Unit 4: PE & Sports for CWSN* | Tag: Very High**

SECTION C: Short Answer Type (15 Marks: Attempt any 5 out of 6 x 3)

Word limit: 100-150 words.

Q25. Explain the pre-event, during-event, and post-event responsibilities of the Technical Committee in a sports tournament. [33, 34] *Unit 1: Management of Sporting Events* | Tag: Very High**

Q26. Define Asthma. List down any four asanas used for its prevention and briefly explain the procedure of any one. [35, 36] *Unit 3: Yoga as Preventive Measure* | Tag: High**

Q27. Differentiate between Sprain, Strain, and Contusion. [37] *Unit 7: Physiology & Injuries* | Tag: Very High**

Q28. With the help of suitable sports examples, explain the application of Newton's Second Law of Motion (Law of Acceleration). [38, 39] *Unit 8: Biomechanics and Sports* | Tag: Very High**

Q29. Describe the Big Five Theory of Personality. [20, 40] *Unit 9: Psychology and Sports* | Tag: High**

Q30. Define Flexibility. Explain the methods (Slow Stretching, Ballistic) to improve flexibility for an athlete. [27, 41] *Unit 10: Training in Sports* | Tag: High**

SECTION D: Case-Study Based Questions (12 Marks: 3 x 4)

All 3 questions are compulsory. Internal choice is provided in one sub-part of each.

Q31. (Unit 1: Management of Sporting Events) [42] Aarti prepared a fixture of 11 teams to conduct a Kho-Kho tournament in her locality on a knock-out basis. Based on your knowledge of fixtures, answer the following: **(i)** What is the total number of matches that will be played in this tournament? **(ii)** How many total byes will be given in this fixture? **(iii)** In which half will the extra bye be given? **OR** What is the formula to calculate the number of rounds? **(iv)** Name the method used to ensure that top-ranked teams do not face each other in the initial rounds.

Q32. (Unit 4: PE & Sports for CWSN) [43, 44] Akriti is a class XII student who is deaf and mute by birth. She communicates through gestures. In physical education class, the other students hesitate to play with her, causing her to feel isolated. The PE teacher devises a plan to make the class inclusive. **(i)** What kind of challenge is Akriti facing? **(ii)** What is the core principle of 'Inclusive Physical Education' used by the teacher? **(iii)** Suggest any one strategy the PE teacher can use to make physical activities accessible for Akriti. **(iv)** Name the international

sports organization that promotes sporting events specifically for athletes with hearing impairments. **OR** What is the primary purpose of the Special Olympics?

Q33. (Unit 7: Physiology & Injuries) [45, 46] During a football match, Rohan collides heavily with another player. He suffers unbearable pain in his ankle, which immediately swells up. The coach also notices blood collecting under the skin on the other player's forehead. The coach administers immediate first aid. **(i)** What specific type of soft-tissue injury did Rohan likely suffer in his ankle? **(ii)** The collection of blood under the skin on the forehead is known as ___. **(iii)** What immediate first-aid protocol should the coach apply to Rohan's ankle? **(iv)** If the bone had bent and cracked but not broken completely, what type of fracture would it be? **OR** What is a comminuted fracture?

SECTION E: Long Answer Type (15 Marks: Attempt any 3 out of 4 x 5)

Word limit: 200-300 words.

Q34. What do you understand by the term 'Lever'? Discuss the three classes of levers and explain their applications in sports with proper examples. [16, 47] *Unit 8: Biomechanics and Sports | Tag: Very High (Note: Unit 8 carries the highest weightage of 10 marks in the blueprint, practically guaranteeing a 5-mark long answer on Levers or Newton's Laws).*

Q35. What is the SAI Khelo India Fitness Test? Detail the administration, procedure, and scoring system of the '50m Dash' and the 'Partial Curl-Up' test for the 9-18 years age group. [5, 48] *Unit 6: Test and Measurement | Tag: Very High***

Q36. What do you understand by the 'Female Athlete Triad'? Explain its three components (Osteoporosis, Amenorrhea, and Eating Disorders) in detail and suggest preventive measures. [20, 49] *Unit 2: Children & Women in Sports | Tag: High***

Q37. Define Endurance. Differentiate between Continuous, Interval, and Fartlek training methods used for developing endurance in athletes. [29, 50] *Unit 10: Training in Sports | Tag: High***
