

CBSE 2027 Pe — Predicted Paper (Set 2 of 10)

SECTION A: Objective Type Questions (18 Marks: 18 x 1)

All questions are compulsory. Consists of MCQs and Assertion-Reason questions.

Q1. Which of the following is an objective of Intramural tournaments? [1] (A) To achieve high performance at the highest level of the tournament. (B) To develop the feeling of integration with other institutions. (C) To provide opportunities for choosing a career in sports. (D) To promote health and recreation at the institution. *Unit 1: Management of Sporting Events | Tag: Very High***

Q2. Which one of the following is NOT correct regarding the training cycle in sports? [2] (A) A mesocycle is termed as medium duration training. (B) The duration of a microcycle is 3 to 10 days. (C) The duration of the mesocycle is 3 to 6 weeks. (D) The macrocycle has the minimum duration of training. *Unit 10: Training in Sports | Tag: High***

Q3. Amino acids and protein are known as the _____ of life. [3] (A) Building block (B) Training blocks (C) Fitness blocks (D) Both a & b *Unit 5: Sports & Nutrition | Tag: Very High***

Q4. Menarche is defined as the: [4] (A) Ending of menstrual period of women (B) Beginning of menstrual period in women (C) Time of pregnancy (D) Missing of menstrual cycle *Unit 2: Children & Women in Sports | Tag: High***

Q5. The Deaflympics Games was first organized in the year: [4] (A) 1896 (B) 1960 (C) 1924 (D) 1951 *Unit 4: PE & Sports for CWSN | Tag: Medium***

Q6. Which of the following is the correct formula to calculate the Fitness Index in the Harvard Step Test? [5] (A) $(100 \times \text{Test duration in seconds}) / (2 \times \text{Sum of heart beats in recovery periods})$ (B) $(100 \times \text{Test duration in minutes}) / (2 \times \text{Sum of heart beats in recovery periods})$ (C) $(100 \times \text{Test duration in seconds}) / (2 \times \text{Heart beat in first recovery period})$ (D) $(2 \times \text{Test duration in seconds}) / (100 \times \text{Sum of heart beats})$ *Unit 6: Test and Measurement in Sports | Tag: Very High***

Q7. Which of the following fitness components allows an athlete to give a better performance if they have more slow-twitch muscle fibers? [6] (A) Speed (B) Strength (C) Endurance (D) Flexibility *Unit 7: Physiology & Injuries in Sport | Tag: Very High***

Q8. The force which opposes the relative motion between the surfaces of two objects is known as: [7] (A) Frictional force (B) Gravitational force (C) Applied force (D) Mechanical force *Unit 8: Biomechanics and Sports | Tag: High***

Q9. According to Sheldon's classification, Endomorphic people are characterized as: [7] (A) Obese/Solid body (B) Energetic (C) Muscular (D) Adventurous *Unit 9: Psychology and Sports | Tag: High***

Q10. As per the prescribed syllabus, Suryabhedan Pranayama is recommended for the treatment of: [8] (A) Obesity (B) Hypertension (C) Asthma (D) Back pain *Unit 3: Yoga as Preventive Measure | Tag: High***

Q11. When a swimmer pushes the water backwards to move forward, which of Newton's Laws of Motion is applied? [9] (A) Law of Inertia (B) Law of Acceleration (C) Law of Reaction (D) Law of Gravity *Unit 8: Biomechanics and Sports | Tag: Very High***

Q12. The weight of dumbbells used in the Arm Curl test for men in the Rikli & Jones Senior Citizen test is: [10] (A) 5 pounds (B) 4 pounds (C) 8 pounds (D) 10 pounds *Unit 6: Test and Measurement in Sports | Tag: Medium***

Q13. What is the expanded form of SPD? [11] (A) Sensory Processing Disorder (B) Sensory Personal Disorder (C) Sensory Problem Disorder (D) Sensory Persona Disorder *Unit 4: PE & Sports for CWSN | Tag: High***

Q14. Bow legs deformity is primarily caused due to the deficiency of: [12] (A) Iron (B) Calcium (C) Vitamin-D (D) Both b & c *Unit 2: Children & Women in Sports | Tag: Very High***

Q15. Circuit training is an effective method for developing: [7] (A) Speed (B) Strength, endurance and flexibility (C) Agility (D) All of the above *Unit 10: Training in Sports | Tag: Very High***

Q16. Assertion (A): The International Paralympic Committee (IPC) has developed a classification process for all athletes. [13, 14] **Reason (R):** The classification process determines eligibility and groups sportspeople for the purpose of equitable competition. [14, 15] (A) Both (A) and (R) are true and (R) is the correct explanation of (A). (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A). (C) (A) is true, but (R) is false. (D) (A) is false, but (R) is true. *Unit 4: PE & Sports for CWSN | Tag: High***

Q17. Assertion (A): The risk of cancer can be reduced by eating more colorful vegetables, fruits and other plant-foods that have certain phytochemicals. [16, 17] **Reason (R):** Non-nutritive components of diet are part of a balanced diet. [16, 17] (A) Both (A) and (R) are true and (R) is the correct explanation of (A). (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A). (C) (A) is true, but (R) is false. (D) (A) is false, but (R) is true. *Unit 5: Sports & Nutrition | Tag: High***

Q18. Assertion (A): Planning should be the first step for organizing a tournament. [18] **Reason (R):** A tournament can be conducted without planning. [18] (A) Both (A) and (R) are true and (R) is the correct explanation of (A). (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A). (C) (A) is true, but (R) is false. (D) (A) is false, but (R) is true. *Unit 1: Management of Sporting Events | Tag: Very High***

SECTION B: Very Short Answer Type (10 Marks: Attempt any 5 out of 6 x 2)

Word limit: 60-90 words.

Q19. Define Speed and elaborate on any one method to develop speed in athletes. [19] *Unit 10: Training in Sports | Tag: High***

Q20. What do you mean by 'round shoulders'? Suggest any two exercises as corrective measures. [20] *Unit 2: Children & Women in Sports | Tag: Very High***

Q21. Enumerate any two common myths related to food and dieting with their respective facts. [21] *Unit 5: Sports & Nutrition* | *Tag: Medium***

Q22. What do you mean by Bio-mechanics? Explain any two points highlighting the importance of Bio-mechanics in sports. [19] *Unit 8: Biomechanics and Sports* | *Tag: Very High***

Q23. Mention any two effective strategies for enhancing adherence to exercise in individuals. [21] *Unit 9: Psychology and Sports* | *Tag: High***

Q24. Enlist any two exercise guidelines recommended by the World Health Organization (WHO) for adults. [22] *Unit 2: Children & Women in Sports* | *Tag: Medium***

SECTION C: Short Answer Type (15 Marks: Attempt any 5 out of 6 x 3)

Word limit: 100-150 words.

Q25. "The organisation of its community sports reflects the progress of any country." In the context of this statement, outline the objectives of a 'Run for a specific cause' and a 'Run for unity'. [23] *Unit 1: Management of Sporting Events* | *Tag: Medium***

Q26. What is Obsessive Compulsive Disorder (OCD)? Explain its possible causes in detail. [20] *Unit 4: PE & Sports for CWSN* | *Tag: High***

Q27. Elaborate on any three long-term effects of regular exercise on the cardiorespiratory system. [24] *Unit 7: Physiology & Injuries in Sport* | *Tag: Very High***

Q28. Describe the physical and psychological benefits of women's participation in sports. [25] *Unit 2: Children & Women in Sports* | *Tag: Very High***

Q29. Discuss Sheldon's classification of personality types (Endomorph, Mesomorph, Ectomorph) in detail. [19] *Unit 9: Psychology and Sports* | *Tag: High***

Q30. What is the role of asanas in preventing common lifestyle diseases? Discuss briefly. [20] *Unit 3: Yoga as Preventive Measure* | *Tag: High***

SECTION D: Case-Study Based Questions (12 Marks: 3 x 4)

All 3 questions are compulsory. Internal choice is provided in one sub-part of each.

Q31. (Unit 1: Management of Sporting Events) ABC School is one of the reputed schools in their location for the number of sports facilities it provides. Keeping that in consideration, the CBSE Sports cell has given them the responsibility of conducting the CBSE Football cluster. 35 teams have sent their entry for participation in the tournament. Based on this, answer the following: [26] **(i)** Due to the large number of teams willing to participate, the school decides to use a League fixture. What is the formula to calculate the total number of matches in a single round-robin league? [27] **(ii)** In League tournaments, the winner is usually decided by the British or American Method. True or False? [27] **(iii)** Which of the following is NOT a League Fixture Procedure: Cyclic method, Staircase method, or Knock-out method? [28] **(iv)**

How many total matches will be played if a single league tournament is conducted for 8 teams? **OR** What is a "Bye" in tournament fixtures? [27, 29]

Q32. (Unit 6: Test and Measurement in Sports) Mr. Lakshman, aged 65 years, worked as a civil engineer in a construction company. After retirement, he settled with his son, spending time with his grandchildren. Recently, he is experiencing difficulty in doing certain chores which involve physical movement. His doctor advises a fitness evaluation. [30] **(i)** Which specific fitness test battery would you recommend to check Mr. Lakshman's fitness given his age? [30] **(ii)** The 8-foot up & go test in this battery is primarily performed to assess which fitness component? [31] **(iii)** The Chair sit & reach test is specifically done to check _____. [31] **(iv)** Name the test used to measure upper body strength in this fitness battery. **OR** Name the test used to measure cardiovascular endurance for senior citizens. [30, 32]

Q33. (Unit 5: Sports & Nutrition) The Ganga school teams have started practice for the upcoming Basketball Cluster Tournament. One day, the school secretary visited the playground and felt that the players were looking weak and fatigued early in the session. After discussion with the coach, he arranged a dietician to evaluate the players' dietary requirements. [33] **(i)** Which type of nutrients are strictly advisable for players for immediate energy recovery? [33] **(ii)** Proteins and amino acids are commonly referred to as the __ of life. [3] **(iii)** What is the recommended daily intake of water (in liters) for a healthy individual? [33] **(iv)** What are the potential "pitfalls of dieting" that the dietician should warn the athletes about? **OR** Vitamins are also referred to as ____ foods. [33, 34]

SECTION E: Long Answer Type (15 Marks: Attempt any 3 out of 4 x 5)

Word limit: 200-300 words.

Q34. Explain the pre-game, during-game, and post-game responsibilities of various committees (like the technical, finance, and logistics committees) for organizing a sports tournament smoothly. [18, 19] *Unit 1: Management of Sporting Events | Tag: Very High***

Q35. What do you understand by "Circuit Training"? Explain how a coach will plan a circuit training session with 6 different exercise stations to optimally develop the fitness of his new trainees. [35, 36] *Unit 10: Training in Sports | Tag: Very High***

Q36. Explain the physiological factors determining Strength and Speed in an athlete. How does the composition of muscle fibers (fast-twitch vs. slow-twitch) affect sports performance? [37] *Unit 7: Physiology & Injuries in Sport | Tag: Very High***

Q37. Write a detailed note on "Food Intolerance". Additionally, critically analyze the major pitfalls of modern dieting methods among sports athletes. [38] *Unit 5: Sports & Nutrition | Tag: High***
