

CBSE 2027 Pe — Predicted Paper (Set 5 of 10)

SECTION A: Objective Type Questions (18 Marks: 18 x 1)

All questions are compulsory. Consists of MCQs and Assertion-Reason questions.

- Q1.** Which of the following is NOT a type of Combination Tournament? (A) Knock-out cum Knock-out (B) League cum League (C) Staircase cum Cyclic (D) Knock-out cum League *Unit 1: Management of Sporting Events | Tag: High***
- Q2.** The sports training method characterized by periods of intense work followed by periods of incomplete recovery is called: (A) Continuous method (B) Interval method (C) Fartlek method (D) Circuit training *Unit 10: Training in Sports | Tag: Very High***
- Q3.** Which of the following is a severe eating disorder characterized by a cycle of binge eating followed by extreme purging (vomiting)? (A) Anorexia Nervosa (B) Amenorrhea (C) Osteoporosis (D) Bulimia Nervosa *Unit 2: Children & Women in Sports | Tag: High***
- Q4.** According to the syllabus, *Gomukhasana* (Cow Face Pose) is highly recommended as a preventive measure for which lifestyle disease? (A) Diabetes (B) Asthma (C) Obesity (D) Hypertension *Unit 3: Yoga as Preventive Measure | Tag: High***
- Q5.** Which of the following falls under the category of 'Micro-Nutrients'? (A) Carbohydrates (B) Fats (C) Proteins (D) Minerals *Unit 5: Sports & Nutrition | Tag: Very High***
- Q6.** In the SAI Khelo India Fitness Test battery (9-18 years), what does the 50m Dash test measure? (A) Cardiovascular Endurance (B) Explosive Power (C) Speed and Acceleration (D) Flexibility *Unit 6: Test and Measurement in Sports | Tag: Very High***
- Q7.** The volume of air breathed in and out in a single normal breath without any extra effort is known as: (A) Tidal Volume (B) Vital Capacity (C) Residual Volume (D) Oxygen Uptake *Unit 7: Physiology & Injuries in Sport | Tag: High***
- Q8.** The friction that comes into play when a spherical object like a football moves over the surface of the ground is called: (A) Static friction (B) Sliding friction (C) Rolling friction (D) Fluid friction *Unit 8: Biomechanics and Sports | Tag: Medium***
- Q9.** According to the Big Five Theory of Personality, individuals who are moody, anxious, insecure, and easily stressed score high on which trait? (A) Extroversion (B) Conscientiousness (C) Neuroticism (D) Agreeableness *Unit 9: Psychology and Sports | Tag: High***
- Q10.** A severe bone injury where the broken bone pierces through the skin, exposing the bone to the external environment, is called a: (A) Simple Fracture (B) Compound/Open Fracture (C) Greenstick Fracture (D) Comminuted Fracture *Unit 7: Physiology & Injuries in Sport | Tag: Very High***
- Q11.** To be eligible to participate in the Deaflympics, an athlete must have a hearing loss of at least: (A) 25 decibels (B) 40 decibels (C) 55 decibels (D) 70 decibels *Unit 4: PE & Sports for CWSN | Tag: Medium***

Q12. In which type of lever is the Effort (Force) situated exactly between the Fulcrum and the Load (Resistance)? (A) First-class lever (B) Second-class lever (C) Third-class lever (D) None of the above *Unit 8: Biomechanics and Sports | Tag: Very High***

Q13. A postural deformity characterized by an abnormally wide gap between the knees when standing with feet together is known as: (A) Knock Knees (Genu Valgum) (B) Bow Legs (Genu Varum) (C) Flat Foot (D) Round Shoulders *Unit 2: Children & Women in Sports | Tag: Very High***

Q14. The coordinative ability to determine and change the position and movements of the body in time and space in relation to a definite field of action is: (A) Orientation ability (B) Balance ability (C) Reaction ability (D) Rhythm ability *Unit 10: Training in Sports | Tag: High***

Q15. An athlete running a long-distance marathon will heavily rely on which type of muscle fibers for sustained energy? (A) Fast-twitch fibers (Type IIb) (B) Intermediate fibers (Type IIa) (C) Slow-twitch fibers (Type I) (D) None of the above *Unit 7: Physiology & Injuries in Sport | Tag: Very High***

Q16. Assertion (A): Intrinsic motivation comes from within the individual, driven by personal satisfaction, inner joy, and the love for the sport. **Reason (R):** Cash prizes, trophies, and public praise are excellent examples of intrinsic motivation. (A) Both (A) and (R) are true and (R) is the correct explanation of (A). (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A). (C) (A) is true, but (R) is false. (D) (A) is false, but (R) is true. *Unit 9: Psychology and Sports | Tag: High***

Q17. Assertion (A): Extramural competitions are sports activities organized strictly within the boundary walls of an institution. **Reason (R):** Intramural competitions promote mass participation and health among the students of a single school. (A) Both (A) and (R) are true and (R) is the correct explanation of (A). (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A). (C) (A) is true, but (R) is false. (D) (A) is false, but (R) is true. *Unit 1: Management of Sporting Events | Tag: Very High***

Q18. Assertion (A): Roughage (fiber) is a critical non-nutritive component of a balanced diet. **Reason (R):** Roughage does not provide energy or macronutrients, but it is essential for proper digestion and preventing intestinal disorders. (A) Both (A) and (R) are true and (R) is the correct explanation of (A). (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A). (C) (A) is true, but (R) is false. (D) (A) is false, but (R) is true. *Unit 5: Sports & Nutrition | Tag: High***

SECTION B: Very Short Answer Type (10 Marks: Attempt any 5 out of 6 x 2)

Word limit: 60-90 words.

Q19. What is 'Seeding' in a tournament fixture? How is it different from 'Special Seeding'? *Unit 1: Management of Sporting Events | Tag: Very High***

Q20. State any two contraindications (who should not perform it) of Vajrasana. *Unit 3: Yoga as Preventive Measure | Tag: Medium***

Q21. Name any two food sources of Vitamin C and two food sources of Vitamin D. *Unit 5: Sports & Nutrition | Tag: High***

Q22. Name the two specific test items used to measure upper-body flexibility and lower-body flexibility in the Rikli & Jones Senior Citizen Fitness Test. *Unit 6: Test and Measurement in Sports | Tag: High***

Q23. Briefly differentiate between Introvert and Extrovert personalities according to Carl Jung's classification. *Unit 9: Psychology and Sports | Tag: High***

Q24. Define the 'Continuous Training Method'. Mention any one of its primary advantages for an athlete. *Unit 10: Training in Sports | Tag: Very High***

SECTION C: Short Answer Type (15 Marks: Attempt any 5 out of 6 x 3)

Word limit: 100-150 words.

Q25. Elucidate the concept of 'Divisioning' in sports for Children with Special Needs (CWSN) and explain its importance. *Unit 4: PE & Sports for CWSN | Tag: Medium***

Q26. Explain any three common postural deformities related specifically to the spinal curvature (Kyphosis, Lordosis, Scoliosis) in brief. *Unit 2: Children & Women in Sports | Tag: Very High***

Q27. Explain the immediate management protocol for Bone Injuries (Fractures) on the sports field before professional medical help arrives. *Unit 7: Physiology & Injuries in Sport | Tag: High***

Q28. State Newton's First Law of Motion (Law of Inertia) and explain its application with the help of any two examples from sports. *Unit 8: Biomechanics and Sports | Tag: Very High***

Q29. Elaborate on any three common "pitfalls of dieting" that an athlete must avoid to maintain optimal health. *Unit 5: Sports & Nutrition | Tag: High***

Q30. What do you understand by 'Coordinative Abilities'? Explain any two types of coordinative abilities relevant to sports performance. *Unit 10: Training in Sports | Tag: Very High***

SECTION D: Case-Study Based Questions (12 Marks: 3 x 4)

All 3 questions are compulsory. Internal choice is provided in one sub-part of each.

Q31. (Unit 1: Management of Sporting Events) During the Annual Sports Day at ABC Public School, the Principal formed various committees to ensure the smooth conduct of the event. The Transport Committee managed buses for visiting teams, while the Technical Committee arranged umpires and referees for the matches. One specific committee was solely given the task of liaising with local media to publish the dates and venues in the newspaper. **(i)** Which committee is responsible for publishing the dates and venues in the newspaper? **(ii)** Arranging umpires, referees, and scorekeepers is the job of which committee? **(iii)** Which

committee deals with the stay, food, and accommodation of visiting athletes? **(iv)** Purchasing sports equipment and marking/preparing the grounds comes under the purview of the _____ committee. **OR** What is the main role of the First Aid/Medical committee during the event?

Q32. (Unit 6: Test and Measurement in Sports) The PE teacher of a school administered the SAI Khelo India fitness test battery for class 10 students (age group 9-18 years). Using a stopwatch, measuring tape, and a mat, the teacher recorded the time taken for a '50m dash' to check their explosive speed, and then conducted the 'Partial Curl-up' test on the mat. **(i)** The 50m Dash test is primarily used to measure which component of fitness? **(ii)** What specific physical fitness component does the Partial Curl-up test measure? **(iii)** Which test from the SAI Khelo India battery should the teacher use to measure the flexibility of the students? **(iv)** What physical measurements are required to calculate the BMI of a student? **OR** To measure cardiovascular endurance in this age group, which specific run/walk test is recommended by the protocol?

Q33. (Unit 3: Yoga as Preventive Measure) Ram's grandfather is suffering from diabetes and constantly struggles with elevated blood sugar levels. A certified yoga instructor advised him to practice *Bhujangasana* and *Ardha Matsyendrasana* daily to stimulate his pancreas. However, he was strictly warned not to perform certain poses due to his recent abdominal surgery. **(i)** Diabetes is a medical condition characterized by the insufficient production or improper utilization of which hormone? **(ii)** Which asana, commonly known as the "Half Lord of the Fishes Pose", was recommended to him for managing diabetes? **(iii)** Name one other lifestyle disease (apart from diabetes) that can be effectively prevented by practicing Yoga. **(iv)** Write one common contraindication (who should avoid it) for performing *Bhujangasana*. **OR** Name the yoga asana that translates to the "Cobra Pose".

SECTION E: Long Answer Type (15 Marks: Attempt any 3 out of 4 x 5)

Word limit: 200-300 words.

Q34. What is a Knock-out Tournament? Draw a neat knock-out fixture for 23 teams. Clearly show all the calculations for the number of matches, number of rounds, teams in the upper and lower halves, and the allocation of byes. *Unit 1: Management of Sporting Events | Tag: Very High***

Q35. Give a detailed account of the organizations promoting adaptive sports globally. Specifically, write the aims, objectives, and target participant groups for the **Special Olympics**, the **Paralympics**, and the **Deaflympics**. *Unit 4: PE & Sports for CWSN | Tag: High***

Q36. Discuss in detail the physiological factors that determine **Endurance** and **Flexibility** in a sportsperson. *Unit 7: Physiology & Injuries in Sport | Tag: Very High***

Q37. Define Motivation. Differentiate between Intrinsic and Extrinsic motivation. Furthermore, explain any three effective psychological techniques a coach can use to motivate athletes for higher achievement in sports. *Unit 9: Psychology and Sports | Tag: Very High***
