

CBSE Class 12 Pe — Management of Sporting Events

50 Most-Probable PYQs & Board-Pattern Practice Questions

1-Mark (MCQ/Assertion-Reason/VSA)

- Q1.** What is the formula to calculate the number of matches in a single league tournament where N is the number of teams? (A) $N - 1$ (B) $N(N - 1)$ (C) $\frac{N(N-1)}{2}$ (D) $2N - N$ [PYQ 2024] | Confidence: Very High
- Q2.** How many total matches will be played in a knock-out fixture of 19 teams? (A) 18 (B) 17 (C) 20 (D) 16 [PYQ 2024] | Confidence: Very High
- Q3.** Which one of the following is a post-competition responsibility of the technical committee? (A) Requisition to purchase equipment (B) Arrangement of equipment and stationery (C) Arrangement of officials (D) Maintenance of the field [PYQ 2024] | Confidence: High
- Q4.** Which of the following is the next step after planning the sports event? (A) Staffing (B) Directing (C) Controlling (D) Organising [PYQ 2024] | Confidence: Very High
- Q5.** Which of the following is an objective of Intramural tournaments? (A) To achieve high performance at the highest level of the tournament. (B) To develop the feeling of integration with other institutions. (C) To provide opportunities for choosing a career in sports. (D) To promote health and recreation at the institution. [PYQ 2024] | Confidence: Very High
- Q6.** ___ is an event to showcase children and youth's abilities and prowess on the sports field. (A) Run for Fun (B) Run for a specific cause (C) Sports Day (D) Health Run [PYQ 2024] | Confidence: High
- Q7.** Given below are the two statements labeled Assertion (A) and Reason (R): Assertion (A): The knock out tournament is an elimination tournament. Reason (R): In a knock out tournament, the winner of each match advances in the tournament and the loser gets eliminated. In the context of the above two statements, which one of the following is correct? (A) Both (A) and (R) are true and (R) is the correct explanation of (A). (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A). (C) (A) is true, but (R) is false. (D) (A) is false, but (R) is true. [PYQ 2024] | Confidence: Very High
- Q8.** What is the formula to calculate the number of byes in the lower half if the total number of teams (N) is odd? (A) $\frac{N+1}{2}$ (B) $\frac{N-1}{2}$ (C) $\frac{N-1}{2}$ (D) $\frac{N+1}{2}$ [Practice] | Confidence: Very High
- Q9.** Given below are two statements labeled Assertion (A) and Reason (R): Assertion (A): Planning should be the first step for organizing a tournament. Reason (R): A tournament can be conducted without planning. (A) Both (A) and (R) are true and (R) is the correct explanation of (A). (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A). (C) (A) is true, but (R) is false. (D) (A) is false, but (R) is true. [PYQ 2025] | Confidence: High

Q10. What do you mean by 'Seeding' in tournament fixtures? [PYQ 2018] | Confidence: Very High

Q11. Match the following committees with their responsibilities: (a) Technical committee (i) To provide shifting facility (b) Finance committee (ii) To resolve dispute (c) Transport committee (iii) To deals with money and expenditure (d) First aid committee (iv) To provide medical facility (A) a-ii, b-iii, c-i, d-iv (B) a-iii, b-ii, c-i, d-iv (C) a-ii, b-iii, c-iv, d-i (D) a-iv, b-iii, c-i, d-ii [PYQ 2022] | Confidence: High

Q12. If 7 teams participate in a Double League Tournament such as in the IPL, how many matches will be conducted in the first phase of the league? (A) 42 (B) 45 (C) 54 (D) 58 [PYQ] | Confidence: Medium

Q13. Which of the following is NOT a League Fixture Procedure? (A) Ladder method (B) Staircase method (C) Cyclic method (D) Tabular method [PYQ] | Confidence: Very High

Q14. During a sports tournament, which specific committee is responsible for arranging trophies, medals, and certificates for the winners? (A) Logistics Committee (B) Technical Committee (C) Decoration and Ceremony Committee (D) Marketing Committee [Practice] | Confidence: High

Q15. The provision in which good teams are placed in different halves or pools, based on their ranking or previous performance (not by allotment of draw) so that they do not play with other good teams in the first round is known as _____. (A) Bye (B) British method (C) Seeding (D) American method [PYQ 2024] | Confidence: Very High

Q16. How many total rounds will be played if 16 teams participate in a knock-out tournament? (A) 3 (B) 4 (C) 5 (D) 15 [Practice] | Confidence: High

Q17. The tournament which is played to provide a second chance to the teams that were defeated in the early rounds of a knock-out tournament is known as: (A) Double League Tournament (B) Consolation Tournament (C) Challenge Tournament (D) Ladder Tournament [Practice] | Confidence: Medium

Q18. Which of the following is NOT the objective of a Sports Tournament? (A) To Provide Recreation (B) To help in overall development (C) To achieve high performance at the mass institutional level (D) To provide an opportunity to demonstrate skills [PYQ] | Confidence: Medium

Q19. What is the formula to calculate the number of rounds in a League tournament using the Cyclic Method if the total number of participating teams (N) is even? (A) N (B) $N + 1$ (C) $N - 1$ (D) $\frac{N(N-1)}{2}$ [Practice] | Confidence: Very High

Q20. Define a 'Bye' in the context of sports tournaments. [Practice] | Confidence: Very High

2-Mark

Q21. Write any two primary objectives of 'Planning' in sports events. [PYQ] | Confidence: Very High

- Q22.** Differentiate between a 'Bye' and a 'Seed' in a knock-out tournament fixture. [Practice] | Confidence: Very High
- Q23.** What do you understand by the term 'Intramural'? Give its two objectives. [PYQ] | Confidence: High
- Q24.** Enumerate any two specific responsibilities of the 'Marketing Committee' during the organization of a mega sports event. [PYQ 2023] | Confidence: High
- Q25.** Write down the responsibilities of organizing committees and official committees. [PYQ] | Confidence: Medium
- Q26.** Briefly explain the concept of a 'Consolation Tournament'. [Practice] | Confidence: Medium
- Q27.** State the basic difference between Intramural and Extramural tournaments. [PYQ] | Confidence: Very High
- Q28.** Explain the formula to calculate the number of matches and the number of byes in a knock-out tournament. [Practice] | Confidence: High
- Q29.** Mention any two objectives of Extramural tournaments. [Practice] | Confidence: High
- Q30.** What is a 'Run for Fun'? State its primary objective. [PYQ] | Confidence: High
- Q31.** What is 'Special Seeding'? How does it differ from regular seeding? [Practice] | Confidence: Very High
- Q32.** State any two post-tournament responsibilities of the finance committee. [Practice] | Confidence: Medium
-

3-Mark

- Q33.** "The organisation of its community sports reflects the progress of any country." In the context of this statement, outline 'Run for a specific cause' and 'Run for unity'. [PYQ 2024] | Confidence: Very High
- Q34.** Describe the advantages of league tournaments. [PYQ 2018] | Confidence: High
- Q35.** Explain any three steps to be followed for organising a Health Run in your school. [PYQ] | Confidence: Medium
- Q36.** Explain the procedure for calculating the total number of matches, the number of byes, and rounds in a single knock-out tournament for 15 teams. [Practice] | Confidence: Very High
- Q37.** Draw a neat knock-out fixture for 7 teams, clearly showing the calculation for byes and the number of matches. [PYQ] | Confidence: High
- Q38.** Elucidate the functions of the first aid committee, boarding & lodging committee, and prize distribution committee during sports events. [PYQ] | Confidence: High
- Q39.** Explain the Cyclic Method of drawing a league fixture. Draw a clear fixture for 5 teams using this method. [Practice] | Confidence: Very High

Q40. Explain the Staircase Method of drawing a league fixture for 6 teams. [Practice] | Confidence: High

Q41. Differentiate clearly between Intramural and Extramural competitions by providing any three distinct points of comparison. [PYQ] | Confidence: Very High

Q42. State the distinct functions of the 'Committee for Entries and Programmes' and the 'Announcement Committee' during a mega sporting event. [PYQ] | Confidence: Medium

5-Mark (Long Answer/Case-Study)

Q43. What is a league tournament? Draw a fixture of nine (9) teams on the basis of a league tournament using the cyclic method. Explain the British method of declaring the winner. [PYQ] | Confidence: Very High

Q44. Explain the pre-game, during-game, and post-game responsibilities of officials of various committees for organising a sports tournament smoothly. [PYQ] | Confidence: Very High

Q45. Draw a fixture of twenty-six (26) teams participating in a knockout tournament. Clearly show all calculations (matches, byes, rounds, halves). [PYQ] | Confidence: Very High

Q46. What is a 'Combination Tournament'? Explain the situations where it is applied. Draw a neat fixture of 16 teams using the Knock-out cum League method, showing the initial zonal stage and the final league stage. [Practice] | Confidence: High

Q47. Case Study: ABC School is one of the reputed schools in their location for the number of sports facilities it provides. Keeping that in consideration, the CBSE Sports cell has given them the responsibility of conducting the CBSE Football cluster. 35 teams have sent their entry for participation in the tournament. A. Due to a large number of teams willing to participate, the school is conducting the competition by ___ fixture. B. What will be the total number of matches in the tournament? C. Total number of rounds will be ___? **D. Total number of byes in the fixture will be ___?** [PYQ] | Confidence: Very High

Q48. Case Study: Aarti prepared a fixture of 11 teams to conduct a Kho-Kho tournament in her locality on a knock-out basis. Based on the fixture knowledge, answer the following: (i) What is the total number of matches that will be played? (ii) How many total byes will be given in this fixture? (iii) In which half will the extra bye be given? (iv) What is the formula to calculate the number of rounds? [PYQ 2024] | Confidence: Very High

Q49. Case Study: With the aim of promoting physical fitness and healthy lifestyle amongst students, the Physical Education Teacher at XYZ School plans to organize intramural competitions at school. For conducting the event he has given this assignment to the students of class XII. A. The work of committees is divided into ___ (Pre, during and post / Pre and post). B. Match the following: (a) Technical committee (i) To provide shifting facility; (b) Finance committee (ii) To resolve dispute. C. Which of the following is NOT an objective of a Sports Tournament: To Provide Recreation OR To achieve high performance at international levels? [PYQ] | Confidence: High

Q50. Case Study: Tarun's physical education teacher gave him the responsibility of organizing a Kabaddi competition in school. Tarun along with his classmates formed several committees and prepared a knockout fixture of 17 teams. He faced many challenges but was successful. (i) How many matches will be played in this tournament? (ii) Which type of tournament saves cost and time and makes each match intensive because of fear of elimination? (iii) Two team players got injured during the match, which committee will manage it? (iv) Which formula was used to allot byes to the above teams in the lower half? [PYQ 2024] | Confidence: Very High

Answer Key

Q1. (C) $\frac{N(N-1)}{2}$ **Q2.** (A) 18 (Formula: $N - 1 = 19 - 1$) **Q3.** (D) Maintenance of the field (and returning equipment/score sheets). **Q4.** (D) Organising **Q5.** (D) To promote health and recreation at the institution. **Q6.** (C) Sports Day **Q7.** (A) Both (A) and (R) are true and (R) is the correct explanation of (A). **Q8.** (A) $\frac{N_b+1}{2}$ **Q9.** (C) (A) is true, but (R) is false (Planning is essential). **Q10.** Seeding is placing strong teams in different parts/halves of fixtures so they do not face each other in early rounds. **Q11.** (A) a-ii, b-iii, c-i, d-iv **Q12.** (A) 42 (Double league formula $N(N - 1) \rightarrow 7(6) = 42$) **Q13.** (A) Ladder method (Ladder is a challenge tournament). **Q14.** (C) Decoration and Ceremony Committee **Q15.** (C) Seeding **Q16.** (B) 4 ($2^4 = 16$, so 4 rounds). **Q17.** (B) Consolation Tournament **Q18.** (C) To achieve high performance at the mass institutional level (this is for extramurals/professionals). **Q19.** (C) $N - 1$ **Q20.** A privilege given to a team generally in the first round to exempt them from playing, allowing direct entry to the second round. **Q21.** 1. To ensure smooth conduct of the event. 2. To optimize resources and avoid last-minute confusion. **Q22.** Bye exempts a team from the first round. Seed places a strong team strategically to avoid early elimination against other strong teams. **Q23.** 'Intra' means within, 'mural' means walls. Competitions within the institution. Objectives: Mass participation, recreation, identifying talent. **Q24.** 1. Generating sponsorships/funds. 2. Managing media publicity and press releases. **Q25.** Organising Committee: Executes the overall plan and coordinates all sub-committees. Official Committee: Technical conduct, arranging referees/umpires. **Q26.** A tournament organized for teams knocked out in the early rounds to give them a second chance to play and rank. **Q27.** Intramural is played within the boundary walls of the school for its own students. Extramural is played between two or more different schools outside the boundary walls. **Q28.** Matches = $N - 1$. Byes = Next highest power of 2 — N . **Q29.** 1. To improve sports standards. 2. To develop brotherhood and integration among institutions. **Q30.** A recreational run aiming to promote health, fitness, and spread joy/awareness without strict competition rules. **Q31.** Special seeding directly advances top teams to quarter-finals or semi-finals, exempting them from all preliminary rounds, unlike normal seeding which only separates them in the draw. **Q32.** 1. Settling all outstanding bills and payments. 2. Preparing the final financial report/budget analysis. **Q33.** *Run for a specific cause:* Organised to raise funds or awareness for charities/social causes (e.g., cancer, education). *Run for unity:* Organised to promote peace,

national integration, and harmony among citizens. **Q34.** 1. Determines the true winner fairly. 2. Teams get maximum opportunities to play. 3. Sports popularity increases due to a high number of matches. **Q35.** 1. Fix date, time, and route safely. 2. Arrange medical/first-aid facilities. 3. Ensure proper publicity to maximize participation. **Q36.** Matches = $15 - 1 = 14$. Byes = $16 - 15 = 1$. Rounds = $16 = 2^4 \rightarrow 4$ rounds. **Q37.** Matches = 6. Byes = $8 - 7 = 1$. Upper half = 4 teams, Lower half = 3 teams. Bye given to the last team of the lower half. **Q38.** First aid: Medical care during injuries. Boarding & Lodging: Accommodation and meals for athletes. Prize distribution: Arranging and giving away trophies/medals. **Q39.** In Cyclic, team 1 is fixed at top right. Others rotate clockwise. For 5 teams, N is odd, so a 'Bye' is fixed instead, and teams rotate. Total rounds = $N = 5$. Matches = $5(4)/2 = 10$. **Q40.** Teams are arranged in a step-like formation. 1 plays 2,3,4,5,6 on the first step. 2 plays 3,4,5,6 on the second step. No byes are given. Total matches = 15. **Q41.** 1. Intramural is inside the school; Extramural is outside. 2. Intramural focuses on mass participation; Extramural focuses on competitive excellence. 3. Intramural requires less budget/logistics; Extramural requires high budget and transport. **Q42.** Entries/Programmes: Sending invitations, receiving forms, making fixtures, printing schedules. Announcement: Live commentary, announcing schedules/results during the event. **Q43.** League: Every team plays every other team. Formula matches = $N(N - 1)/2 = 36$. Rounds = $N = 9$. Cyclic fixture drawn with 'Bye' fixed at top right. British method: $\frac{\text{Total points obtained}}{\text{Total possible points}} \times 100$. **Q44.** Pre-game: Planning, budget, sending invites, arranging ground/equipment. During-game: Checking schedules, officiating matches, providing first-aid, maintaining discipline. Post-game: Giving prizes, clearing fields, settling finances, writing reports. **Q45.** $N = 26$. Matches = 25. Byes = $32 - 26 = 6$. Upper Half = 13 teams, Lower Half = 13 teams. Byes in Upper = 3, Lower = 3. Rounds = 5. Quarters distribution: 7, 6, 7, 6. **Q46.** Used when many teams participate from different zones. Reduces travel cost. Knock-out cum League: Teams divided into 4 zones. Play knock-out in zones. 4 zonal winners then play a league tournament to decide the ultimate champion. **Q47.** A. Knock-out (due to large number and constraints). B. Total matches = $35 - 1 = 34$. C. Next power of 2 is 64 (2^6), so 6 rounds. D. Byes = $64 - 35 = 29$. **Q48.** (i) 10 matches ($11 - 1$). (ii) $16 - 11 = 5$ byes. (iii) Lower half gets 3 byes ($\frac{5+1}{2}$). (iv) Calculate next power of 2 (2^n). n is the number of rounds (Here $2^4 = 16$, so 4 rounds). **Q49.** A. Pre, during, and post. B. Technical $\rightarrow$ (ii) To resolve dispute. Finance $\rightarrow$ (iii) deals with money. C. To achieve high performance at international levels (this is an extramural goal). **Q50.** (i) $17 - 1 = 16$ matches. (ii) (A) Knockout tournament. (iii) (B) First Aid / Medical committee. (iv) $\frac{N_b+1}{2}$ where N_b is the number of byes ($32 - 17 = 15$ byes; lower half gets $\frac{15+1}{2} = 8$ byes).

CBSE Class 12 (2027) — Chapterwise PYQ Bank. Compiled from past board papers + board-pattern practice questions (clearly labelled).
