

CBSE Class 12 Pe — Physical Education and Sports for CWSN

50 Most-Probable PYQs & Board-Pattern Practice Questions

1-Mark (MCQ/Assertion-Reason/VSA)

- Q1.** To participate in the Special Olympics, the minimum age of the athlete should be: (A) 6 years (B) 7 years (C) 8 years (D) 9 years [PYQ 2024] | Confidence: Very High
- Q2.** The Deaflympics Games were first organized in the year: (A) 1896 (B) 1960 (C) 1924 (D) 1951 [PYQ 2024] | Confidence: Very High
- Q3.** Which of the following competitions was organized by Sir Ludwig Guttmann at the 1948 London Olympics for disabled persons? (A) Blind Sports (B) Wheelchair Competition (C) Deaf Sports (D) Amputee Sports [PYQ 2024] | Confidence: Very High
- Q4.** The Oath: *"Let me win. But if I cannot win, let me be brave in the attempt"* is related to which of the following organizations? (A) Paralympics (B) Deaflympics (C) Special Olympics (D) Commonwealth Games [PYQ 2024] | Confidence: Very High
- Q5.** Given below are two statements labeled Assertion (A) and Reason (R): Assertion (A): The International Paralympic Committee (IPC) has developed a classification process for all athletes. Reason (R): The classification process determines eligibility and groups sportspeople for the purpose of equitable competition. (A) Both (A) and (R) are true and (R) is the correct explanation of (A). (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A). (C) (A) is true, but (R) is false. (D) (A) is false, but (R) is true. [PYQ 2024] | Confidence: Very High
- Q6.** The expanded form of ODD is: (A) Opposite different disorder (B) Oppositional defiant disorder (C) Opposite different disability (D) Obsessive defect disability [PYQ 2023] | Confidence: Very High
- Q7.** What does the abbreviation CWSN stand for in Physical Education? (A) Children With Special Needs (B) Children With Superior Needs (C) Children With Sporting Needs (D) Children With Strong Needs [PYQ 2022] | Confidence: Very High
- Q8.** Who are the primary participants in the Special Olympics? (A) Physically handicapped athletes (B) Children and adults with intellectual disabilities (C) Deaf athletes (D) Veterans [PYQ 2025] | Confidence: Very High
- Q9.** To be eligible to participate in the Deaflympics, an athlete must have a hearing loss of at least __ in their "better ear". (A) 25 dB (B) 40 dB (C) 55 dB (D) 70 dB [Practice] | Confidence: High
- Q10.** The process of matching athletes of similar abilities into groups so that they can compete fairly in Special Olympics is scientifically known as: (A) Classification (B) Divisioning (C) Seeding (D) Stratification [Practice] | Confidence: High

Q11. The first official Paralympic Games were held in the year **1960** in which city? (A) London (B) Rome (C) Athens (D) Paris [Practice] | Confidence: High

Q12. Which specific cognitive disability severely affects a person's ability to read, spell, and comprehend language? (A) Dyslexia (B) Autism (C) ODD (D) ADHD [PYQ 2022] | Confidence: Medium

Q13. The headquarters of the International Paralympic Committee (IPC) is situated in: (A) Lausanne, Switzerland (B) Bonn, Germany (C) Athens, Greece (D) London, UK [Practice] | Confidence: Medium

Q14. Given below are two statements labeled Assertion (A) and Reason (R): Assertion (A): Autism Spectrum Disorder (ASD) heavily affects an individual's ability to communicate, socialize, and interact with others. Reason (R): ASD is a complex neurological and developmental disorder that begins in early childhood. (A) Both (A) and (R) are true and (R) is the correct explanation of (A). (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A). (C) (A) is true, but (R) is false. (D) (A) is false, but (R) is true. [Practice] | Confidence: High

Q15. The expanded form of ADHD is: (A) Attention Deficit Hyperactivity Disorder (B) Attention Defect Hyperactivity Disability (C) Automatic Deficit Hyperactive Disorder (D) Attention Defiant Hyperactive Disorder [PYQ 2022] | Confidence: Very High

Q16. What is the core philosophy of 'Inclusive Physical Education'? (A) Teaching CWSN in isolated, special schools. (B) Excluding mainstream students from adaptive sports. (C) Educating and engaging CWSN in the same environment as mainstream peers. (D) Providing only theoretical knowledge of sports to CWSN. [Practice] | Confidence: Very High

Q17. Which of the following is a physical benefit of sports for CWSN? (A) Increased depression (B) Improvement in endurance and motor skills (C) Improvement in cognitive skills (D) Better social interaction [PYQ 2023] | Confidence: High

Q18. The expanded form of SPD is: (A) Sensory Processing Disorder (B) Sensory Personal Disorder (C) Sensory Problem Disorder (D) Sensory Persona Disorder [PYQ 2022] | Confidence: High

Q19. Starter's guns and referee whistles are replaced by visual cues like flags and flashing lights in which of the following events? (A) Special Olympics (B) Paralympics (C) Deaflympics (D) Commonwealth Games [Practice] | Confidence: High

Q20. Name the founder of the Paralympic Movement. [PYQ 2025] | Confidence: Very High

2-Mark

Q21. Enlist any four benefits of participation in physical activities for children with special needs. [PYQ 2024] | Confidence: Very High

Q22. Write two ways to communicate effectively with people suffering from cognitive impairments. [PYQ] | Confidence: High

- Q23.** What do you understand by the concept of 'Inclusion' in physical education? [Practice] | Confidence: Very High
- Q24.** State the primary difference between the participants of the Paralympics and the Special Olympics. [Practice] | Confidence: High
- Q25.** Mention any two roles of a Special Educator in assisting Children with Special Needs (CWSN). [Practice] | Confidence: High
- Q26.** Explain the concept of 'Divisioning' in adaptive sports. [Practice] | Confidence: Very High
- Q27.** State any two strategies or modifications that can be used to make physical activities accessible for CWSN. [PYQ 2025] | Confidence: Very High
- Q28.** Briefly write about the origin of the Deaflympics. [Practice] | Confidence: Medium
- Q29.** What is Obsessive-Compulsive Disorder (OCD)? [PYQ] | Confidence: Medium
- Q30.** Define 'Disability Etiquettes' and give one example. [PYQ] | Confidence: High
- Q31.** State the specific vision and mission of Special Olympics Bharat. [PYQ 2024] | Confidence: High
- Q32.** Mention the primary role of a Speech Therapist for CWSN. [Practice] | Confidence: High
-

3-Mark

- Q33.** Explain any three strategies to make Physical Activities accessible for Children with Special Needs (CWSN). [PYQ 2025] | Confidence: Very High
- Q34.** Write in detail the aims and objectives of Special Olympic Bharat / Special Olympics. [PYQ 2024] | Confidence: Very High
- Q35.** Explain any three physical and psychological benefits of physical activities for children with special needs. [PYQ] | Confidence: Very High
- Q36.** What is Cognitive Disability? Explain its nature with two common examples (like Dyslexia, ASD). [PYQ] | Confidence: High
- Q37.** What is the need for Inclusion in Physical Education? Explain any three points. [Practice] | Confidence: Very High
- Q38.** Elaborate on the role of an Occupational Therapist and a Physiotherapist for Children with Special Needs. [Practice] | Confidence: High
- Q39.** Discuss the 'Classification' process used in the Paralympic games. Why is it essential? [Practice] | Confidence: High
- Q40.** What is Oppositional Defiant Disorder (ODD)? Briefly explain its major symptoms. [PYQ] | Confidence: Medium
- Q41.** Discuss the rules and unique adaptations that are made during the conduct of the Deaflympics. [Practice] | Confidence: Medium

Q42. "Lack of appropriate equipment acts as a major barrier for CWSN." Discuss how providing adapted equipment helps in implementing inclusive education. [Practice] | Confidence: High

5-Mark (Long Answer/Case-Study)

Q43. Give a detailed account of the global organizations promoting adaptive sports. Specifically, write the aims, objectives, and target participant groups for the **Special Olympics**, the **Paralympics**, and the **Deaflympics**. [Practice] | Confidence: Very High

Q44. What do you mean by Inclusion in Sports? Discuss in detail any five practical strategies and infrastructural modifications required to make physical activities and sports accessible for CWSN. [PYQ] | Confidence: Very High

Q45. A collaborative approach is vital to helping Children with Special Needs (CWSN) integrate effectively. Elaborate on the specific roles and responsibilities of the following professionals for CWSN: (a) School Counselor (b) Physiotherapist (c) Occupational Therapist (d) Physical Education Teacher (e) Speech Therapist [Practice] | Confidence: Very High

Q46. What are the types and causes of disability? Explain the difference between cognitive, intellectual, and physical disabilities with appropriate examples. [PYQ] | Confidence: High

Q47. Case Study: She's deaf and mute by birth. She communicates through lip movements and gestures. The other students in the class hesitate to talk and play with her, making her feel isolated. Her friend Raghav approached their physical education teacher, Sarita, about this issue. Sarita gave him some suggestions on how she can be included in the class through physical activities. (i) What kind of disability is the girl facing? (ii) The process of educating such children in the same environment as mainstream peers is called __. (iii) Name the specific international organization that promotes sporting events for athletes with hearing impairments. (iv) Suggest any one strategy the PE teacher can use to make physical activities accessible for her. [PYQ 2024] | Confidence: Very High

Q48. Case Study: During the Physical Education class, Vivek's physical education teacher provided information about sports for children with special needs. He explained how they are catered for in the Paralympics, Deaflympics, and Special Olympics. Additionally, he advised them to motivate such children to participate in physical activities to improve their performance. (i) To participate in the Special Olympics, the minimum age should be __ years old. (ii) The first Deaflympics was held in the year __. (iii) Who was the founder of the Paralympics? (iv) Write any two strategies to make physical activities accessible for special children. [PYQ 2025] | Confidence: Very High

Q49. Case Study: Raj is an 11-year-old boy diagnosed with Down Syndrome, an intellectual disability. His parents want him to engage in sports to improve his physical fitness and social skills. They approach a specialized coach who introduces Raj to a global movement that organizes sports training and athletic competition exclusively for children and adults with intellectual disabilities. (i) Name the specific international organization/movement the coach

introduced Raj to. (ii) What is the famous oath taken by athletes participating in this organization's games? (iii) The process of categorizing athletes of similar abilities into groups for fair competition in adaptive sports is known as _____. (iv) State any one benefit Raj will gain by participating in these adaptive sports. [Practice] | Confidence: High

Q50. Define 'Disability' and 'Disorder'. Detail the various behavioral symptoms and potential causes of Attention Deficit Hyperactivity Disorder (ADHD) and Autism Spectrum Disorder (ASD). [PYQ] | Confidence: Medium

Answer Key

Q1. (C) 8 years **Q2.** (C) 1924 **Q3.** (B) Wheelchair Competition **Q4.** (C) Special Olympics **Q5.** (A) Both (A) and (R) are true and (R) is the correct explanation of (A). **Q6.** (B) Oppositional defiant disorder **Q7.** (A) Children With Special Needs **Q8.** (B) Children and adults with intellectual disabilities **Q9.** (C) 55 dB **Q10.** (B) Divisioning **Q11.** (B) Rome **Q12.** (A) Dyslexia **Q13.** (B) Bonn, Germany **Q14.** (A) Both (A) and (R) are true and (R) is the correct explanation of (A). **Q15.** (A) Attention Deficit Hyperactivity Disorder **Q16.** (C) Educating and engaging CWSN in the same environment as mainstream peers. **Q17.** (B) Improvement in endurance and motor skills **Q18.** (A) Sensory Processing Disorder **Q19.** (C) Deaflympics **Q20.** Sir Ludwig Guttmann **Q21.** 1. Improves physical fitness and motor skills. 2. Builds self-esteem and confidence. 3. Enhances social skills and communication. 4. Reduces anxiety and depression. **Q22.** 1. Use simple, clear, and short sentences. 2. Treat the person with respect and patience, avoiding patronizing tones. **Q23.** Inclusion means providing equal opportunities to CWSN to participate in physical activities alongside mainstream students in a regular educational setting. **Q24.** Paralympics is for athletes with physical, visual, and intellectual impairments (elite competition), while Special Olympics is strictly for individuals with intellectual disabilities (focuses on participation). **Q25.** 1. Modifying the curriculum to suit the child's learning pace. 2. Collaborating with PE teachers to design adaptive physical activities. **Q26.** Divisioning is a fundamental rule in Special Olympics where athletes are grouped based on age, gender, and ability level so that every athlete has a fair chance to excel. **Q27.** 1. Modifying equipment (e.g., lighter balls, balls with bells). 2. Modifying rules (e.g., allowing extra time or shorter distances). **Q28.** The Deaflympics were previously called the International Games for the Deaf. They were first held in Paris in 1924, organized by the International Committee of Sports for the Deaf (ICSD). **Q29.** OCD is a mental health disorder where a person has recurring, unwanted thoughts (obsessions) and feels driven to do something repetitively (compulsions). **Q30.** Disability Etiquettes are a set of respectful behavioral guidelines for interacting with people with disabilities. Example: Always speaking directly to the person rather than their sign-language interpreter. **Q31.** Vision: To provide year-round sports training and athletic competition for children and adults with intellectual disabilities. Mission: To integrate them into society so they are accepted and respected. **Q32.** A speech therapist helps CWSN overcome communication barriers, improving their ability to speak, articulate words, and understand language, which is vital for teamwork in sports. **Q33.** 1. Adapted

Equipment: Using lighter bats, larger balls, or audible balls (with bells). 2. **Rule Modification:** Simplifying game rules, like giving extra trials or reducing play area size. 3. **Accessible Environment:** Ensuring ramps, smooth surfaces, and wheelchair-friendly sports arenas. **Q34.** Aims & Objectives: 1. Focus on holistic development through sports. 2. Provide year-round sports training to people with intellectual disabilities. 3. Help them develop physical fitness, demonstrate courage, and experience joy. 4. Promote social inclusion and public awareness. **Q35.** Physical: Improves cardiovascular endurance, muscle strength, and fine/gross motor skills. Psychological: Reduces stress/anxiety, boosts self-esteem, creates a sense of belonging, and improves mood. **Q36.** Cognitive disability affects a person's ability to process information, learn, read, or compute. Examples: 1. **Dyslexia** (difficulty in reading and spelling). 2. **Dyscalculia** (difficulty in understanding numbers and math). **Q37.** Need for inclusion: 1. **Social Integration:** It breaks down social barriers and reduces discrimination. 2. **Emotional Growth:** It boosts the self-confidence of CWSN by making them feel valued. 3. **Skill Development:** Mainstream students learn empathy, while CWSN learn better communication and motor skills. **Q38. Physiotherapist:** Works on gross motor skills, improving mobility, muscle strength, and posture. **Occupational Therapist:** Helps develop fine motor skills and daily living activities (e.g., grasping, hand-eye coordination) enabling them to handle sports equipment. **Q39.** Classification ensures that athletes with physical impairments compete against others with similar levels of impairment. It groups athletes into classes based on how much their impairment affects their sports performance, ensuring fair and equitable competition. **Q40.** ODD is a behavioral disorder characterized by a recurrent pattern of angry, defiant, and vindictive behavior toward authority figures. Symptoms: Frequent temper tantrums, arguing with adults, deliberately annoying others, and refusing to comply with rules. **Q41.** In the Deaflympics, participants must have a hearing loss of at least 55 dB. Auditory cues like starter guns or referee whistles are strictly prohibited and replaced by visual cues like flashing lights or flag drops to ensure fairness. **Q42.** Adapted equipment bridges the physical capability gap. Examples: Velcro-strapped rackets help those with poor grip; brightly colored cones aid those with low vision; balls with internal bells help blind athletes track the ball. This allows CWSN to play the same games as mainstream peers. **Q43.** 1. **Paralympics:** Elite sports for athletes with physical, visual, and intellectual impairments. Regulated by IPC; highly competitive. 2. **Special Olympics:** For individuals with intellectual disabilities. Founded by Eunice Kennedy Shriver. Focuses on mass participation, divisioning, and courage ("Let me win..."). 3. **Deaflympics:** Exclusively for hearing-impaired athletes (loss of 55 dB+). Uses visual cues instead of auditory signals. **Q44.** Inclusion means providing equal access and opportunities to CWSN in a mainstream educational environment. **Strategies:** 1. Pre-planning physical activities according to ability. 2. Using adapted equipment (audible balls, lighter bats). 3. Modifying rules (extra time, reduced distance). 4. Ensuring accessible infrastructure (ramps, smooth grounds without hurdles). 5. Creating a positive, empathetic environment through peer-buddy systems. **Q45.** (a) **Counselor:** Provides psychological support, managing anxiety/stress. (b) **Physiotherapist:** Improves physical mobility, joint flexibility, and gross motor skills. (c) **Occupational Therapist:** Enhances fine motor skills and daily living activities. (d) **PE Teacher:** Modifies sports rules and equipment to

facilitate active play. (e) **Speech Therapist:** Helps overcome communication and language barriers. **Q46. Disability** is a functional limitation. **Types:** 1. **Physical:** Impairment of body structure (e.g., amputation). 2. **Cognitive:** Impairs the ability to learn and process info (e.g., Dyslexia). 3. **Intellectual:** Below-average IQ and life skills (e.g., Down Syndrome). **Causes:** Genetics, malnutrition, accidents/trauma, infectious diseases, and lack of medical care. **Q47.** (i) Hearing and speech impairment (Deaf & Mute). (ii) Inclusive Education / Inclusion. (iii) International Committee of Sports for the Deaf (Deaflympics). (iv) Using visual cues (flags, hand signals) instead of whistles. **Q48.** (i) (C) 8 years. (ii) 1924. (iii) Sir Ludwig Guttmann. (iv) 1. Modify the rules. 2. Use adaptive sports equipment. **Q49.** (i) Special Olympics. (ii) "Let me win. But if I cannot win, let me be brave in the attempt." (iii) Divisioning. (iv) Improvement in cardiovascular endurance / better social interaction / increased self-esteem. **Q50.** Disability is a restriction in ability to perform a normal activity; Disorder is a disruption of normal physical or mental functions. **ADHD** symptoms: Hyperactivity, inability to focus, impulsiveness. Causes: Genetics, brain injury, low birth weight. **ASD** symptoms: Poor social skills, repetitive behaviors, avoiding eye contact. Causes: Genetic mutations, environmental factors.

CBSE Class 12 (2027) — Chapterwise PYQ Bank. Compiled from past board papers + board-pattern practice questions (clearly labelled).
